**GET THE REAL THING.** Certified, licensed turfgrasses are the only choice for quality golf and sports field projects. Backed by extensive research, superior design, and unmatched quality, legitimate turfgrasses from licensed distributors ensure that your project gets the turfgrass and performance that you expect.

# PURE DYNASTY

Seeded Paspalum from Pure Seed

## Pure Dynasty® Seeded Paspalum

Pure Dynasty®, developed by Pure Seed Testing and distributed by Atlas Turf International, is the market's newest seeded seashore paspalum. Technically advanced, Pure Dynasty contains two seed varieties with unique traits to provide an excellent turf surface that is tighter, better, faster, and stronger.

### PRODUCT FEATURES:

- Tighter density
- Better disease resistance
- Better spring green-up
- Quick germination
- Faster establishment
- Excellent salt tolerance
- Excellent wear tolerance
- Reduced mowing heights
- Stronger overall performance

Pure Dynasty features HydroLock by Pure Seed Testing. This patented coating enhances establishment and survivability by providing the seedling with special nutrients and water absorption capabilities, while also helping to guard against environmental pressures.

Pure Dynasty is the seeded turfgrass solution for wall-to-wall golf course applications, sports fields, parks, and infrastructure projects.

### SEEDING RATE:

The recommended seeding rate is 1 to 3 lbs. per 1,000 sq. ft. (450-1360g/92m<sup>2</sup>) for coated seed.
