*Landscapers' Choice all purpose slow release fertilizer for landscaped areas, overseeding and turf establishment. Fastest starter available. Golf course, home and sports turf grow in.*

***Description:***

*Sustane® 4-6-4 Landscapers' Choice is a natural organic starter and maintenance fertilizer. Sustane® 4-6-4 works by replenishing the soil with a rich supply of humus (stabilized organic matter) and the essential nutrients required for sound and long term fertility programs. Sustane® 4-6-4 provides a combination of slow release nutrients and organic substances. Derived from biologically stable compost plus natural potash and feathermeal.*

## LANDSCAPERS' CHOICE ALL NATURAL FERTILIZER

### ***Benefits of Sustane® 4•6•4 Natural Organic***

- Adds approximately 10% humates by volume
- Increases the nutrient and water holding capacity of the soil
- Strengthens plants tolerance against hot dry conditions
- Greater root development
- Improves buffering against changes in soil pH
- Increases the soil's ability to suppress plant pathogens
- Increased soil porosity and stability for greater root development and water holding capacity

### ***Turf Establishment***

Turf establishment accelerates with 4-6-4 All Natural Organic Fertilizer from Sustane. A complete package containing Slow Release Nitrogen, chelated micronutrients, organic phosphorous and humic substances. Sustane 4-6-4 has been demonstrated time and again to surpass synthetic turf starter fertilizers and other sources of humates and plant biostimulants.

### ***Landscapers' Choice***

Professional landscapers have increasingly turned to Sustane 4-6-4 for use on high maintenance turf and landscaped environments. While synthetic fertilizers supply plant growth nutrients, they do not supply the organic matter required to maintain quality growth. Using fully composted natural fertilizers increases the levels of beneficial microbial activity, which in turn convert nutrients into plant available forms.
