SUPERIOR GROWTH

SPECIALLY DESIGNED FOR HYDROPONIC AND SOIL GROWTH

Superior Growth **Liquid Seaweed** consists of pure seaweed (*Ascophyllum nodosum*). This makes it a unique product as it contains 60 trace mineral elements. **Liquid Seaweed** is a real natural biological fertilizer with no artificial additives or harmful products.

Liquid seaweed helps to promote and stimulate the microorganism within the soil thus promoting good root structure. This is ideal for hydroponic crops and helps with the acceleration of root growth. This helps protect the roots and increases resistance to pests and disease.

- Increases nutrients uptake from the soil. Promotes healthy growth for your plants.
- The use of any chemical fertilizers can be eradicated. It also promotes tolerance in stressful growing conditions.
- Enhances vigorous growth combined with root structure
- Aids in deterring pests and diseases.

DID YOU KNOW?

Seaweeds, also known as Kelp and Algae, are among the oldest forms of life on our planet!

DIRECTIONS FOR USE

Week	Wk 1	Wk 2	Wk 3	Wk 4
Per Day	1 ml/L	1 ml/L	2 ml/L	2 ml/L
Per Week	7 ml/L	7 ml/L	14 ml/L	14 ml/L

These calculations are based on approximately 30 plants per cycle. Add recommended dosages to water and mix in (amounts per litre of water). Shake well before use.

Note Very important:

1. Please make sure that the PH of the water that you dilute into is correct before mixing and after mixing.
2. This product is specifically designed for Hydroponic use.
3. This product is 100% organic and will give the end user a natural and better quality product.

TYPICAL ANALYSIS

Nitrogen (N)	= 10%
Phosphorous pent oxide (P2O5) total	= 2%
Potassium oxide (K2O)	= 5%
