

Polyclean Turf Division Dubai UAE attend the Field day organized by TWCA USA on 22 June 2016 in Albany Oregon USA

Khateeb B Commercial Manager of Polyclean Turf Division attend the field educational day organized by Turf grass Water Conservation Alliance-TWCA that took place on 22nd June 2016 in TWCA research station in Albany Oregon USA.

In keeping ahead with the growing trend in golf and sport turf market across the world of using a more draught-tolerance warm and cool season grass, the field day came as an opportunity to meet the researcher and field team working with growers and genetic breeders in introducing certified grass varieties that can cope with water shortages stress and draught under different climatic zone. The field day was very informative and educational in nature putting science into action and keeping turf professional well informed about the newly tested varieties that TWCA test and certify
